

The required books for St. Ignatius Catholic School for 2011-2012 are listed below by grade. There are books that must be purchased each year and they are available on our on-line book store: [www.stignatiusbooks.com](http://www.stignatiusbooks.com). It is very user friendly and books are listed by grade. All of the assignment books can be found under Student Planners. You are free to find your books elsewhere, but for every book you purchase from our site a percentage of the proceeds come back to the school. There are a number of hard back books that you may purchase new or used. The on-line site offers both. There are also workbooks that the publisher provides free of charge to all students and those will be distributed by teachers the first week of school or as they are needed. They are not included on this list.
